5-7 p.m. | \$50/person

Charleston Library Society
164 King Street, Charleston

SUNDAY, JUNE 25

Bulls Island Excursion with Patrick McMillan to explore this rapidly changing coastline

2 departures | \$40/person

Bulls Island Ferry
Garris Landing, Awendaw

THE NEST PROTECTION PROJECT

in Cape Romain NWR started in 1979 and involves transplanting at-risk nests, constructing predator-proof caging, inventorying nests, genetic sampling and daily monitoring. Averaging over 1,000 nests each year, this is the most active Loggerhead nesting site north of Florida!

PATRICK MCMILLAN

Support the work of the **Sea Turtle Conservation Program** within Cape Romain National Wildlife Refuge with these great events with Patrick McMillan, host of Expeditions with Patrick McMillan. Patrick will be presenting a unique perspective on the challenges of conservation in our time and how we, as humans, shape our world.

Ticket sales from these events will be donated to the Sea Turtle Conservation Program in Cape Romain National Wildlife Refuge to help fund a nesting season biologist and purchase supplies necessary to protect and monitor nests.
